

SAVING SAVVY
**PLAN FOR YOUR
2022/2023
HOLIDAY**

1

MAKE A LIST OF EXPENSES

Budget for what expenses you'll incur on your holiday, it's more than just travel and accommodation. Consider getting to and from the airport, car hire, excursions and even sun cream!

2

CREATE A BUDGET

Once you know how much you can afford, then shop. Be realistic and don't look at holidays that will set you in the red, especially for long periods of time. Consider opening a savings account to add small amounts to regularly.

3

SIGN UP TO NEWSLETTERS

Stay ahead of the sales by signing up to airline and comparison-site newsletters and alerts. This means you will be first to know about flash sales, discounts and special offers.

4

CLEAR YOUR COOKIES WHEN SEARCHING FOR FLIGHTS

Travel companies are a little sneaky, if they know you've looked at the flights previously through cookies stored on your internet browser, the prices will have increased by your next visit. Clear your browser history and your cookies to ensure you're getting a fair price.

5

AVOID PEAK TIMES

If you can avoid travelling during school holidays, then you should. Secondly, try to book flights or other travel for Tuesday-Thursday as they're the least busy times so you won't incur the ramped up costs that come with weekends and the Monday business travel.

6

OPT FOR ALL INCLUSIVE

All inclusive is great for knowing the entirety of your budget before you holiday. All food, drinks and snacks are covered (you may want to check terms and conditions for some alcoholic drink restrictions) so you know 1 total amount before travel.

7

FEEL FREE TO HAGGLE

If you're looking at privately renting your accommodation, don't be scared to haggle the cost. Many listings will include the owner's details, so drop the a text and politely ask if they may consider taking a little less?

8

CUT YOUR SMALL COSTS

When it comes to saving up for your holiday, cutting out your weekly takeaway, or your coffee on your way to work for a month or two can really help to boost the cash you can save for your holiday.

9

USE REWARD CARDS

Did you know both Nectar points and Tesco Clubcard points can be used against flights?

So sign up with these and while you're doing your weekly shopping, or petrol top ups remember to use them to get discounts on your flights.
